## Media consent

At SIDE we aim to offer your child the widest range of learning opportunities and celebrate their learning whenever possible.

We ask your permission for video or photographic images of your child and/or samples of your child's schoolwork to be used by the school and the Department of Education. These may be published in print and digital formats including but not limited to the school newsletter, SIDE and the Department of Education's internet, intranet and social media (Facebook, Instagram, etc) and third-party applications. Student names may also be included but identifying information will be limited.

6. I understand that the Internet is accessible by any person worldwide, and that I can withdraw this permission at any time. \*

- Yes, I give consent to my child to have his/her image and/or work published as described above.
- No, I don't give consent.

## TV rating consent

As part of their SIDE program, students listen, view, and discuss texts such as films, documentaries, episodes on streaming services or DVDs. Many texts used in classrooms have a G rating and contain content of very mild impact. Parents and guardians can be confident their children can view G rated texts. On occasions, a text with a PG classification is felt to be appropriate for the school program. Content with a PG classification is mild in impact but some students under the age of 15 may find it confusing or upsetting.

We seek permission for your child to work with texts that have a PG classification.

7. Please select: \*

- Yes, I consent to my child working with PG classified texts.
- No, I do not consent to my child working with PG classified texts.
